

2025 Heritage at Risk - Key Statistics

This document provides the key statistics from the Heritage at Risk programme for 2025.†

Table 1 - Official Statistics for 2025

Total number of entries on the HAR Register for 2025 (of all methodology types)	4891
Total number of entries added to the previous Register published in 2024 across all risk assessment methodologies to form the 2025 Register	138
Total number of entries removed (for positive reasons) from the previous Register published in 2024 across all risk assessment methodologies	129

Source: Historic England

Supplementary HAR data for 2025

Table 2 - Total Historic England grants (spend)# on entries on the 2024 Register in 2024/25

Financial year	Amount spent	On number of Register entries
2024/25	£7.40 m	123

#Standard grant schemes (this includes Heritage Action Zones and Partnership Schemes in Conservation Areas but does not include regional capacity building grants or funding for High Street Heritage Action Zones)

Source: Historic England

Table 3 - Total number of entries on the Heritage at Risk Register for 2025 by methodology type

Number of secular buildings and structures entries on the Register (including those scheduled monuments assessed using building and structures methodology and the entries on the Register where the secular parts of listed places of worship are at risk)	1460
Number of listed places of worship entries on the Register assessed using the places of worship methodology	986
Number of entries on the Register for scheduled monuments assessed using archaeology risk assessment methodology	1864
Number of registered parks and gardens on the Register	105
Number of registered battlefields on the Register	3
Number of protected wreck sites on the Register	4
Number of conservation areas on the Register	469
Total number of entries on the Register of all methodology types	4891

Source: Historic England

Table 4 - Number of entries for each methodology type added or removed for positive reasons since the 2024 Register to form the 2025 Register

	Number of entries for each methodology type added since the 2024 Register	Number of entries for each methodology type removed for positive reasons from the 2024 Register
Assessed with a Buildings and structures methodology	63	41
Assessed with a Places of Worship methodology	58	37
Assessed with an Archaeology methodology	10	40
Assessed with a Parks and Gardens methodology	4	2
Assessed with a battlefields methodology	0	0
Assessed with a wreck sites methodology	0	0
Assessed with a conservation areas methodology	3	9
Total additions and positive removals across all methodologies	138	129

Table 5 - Figures relating to entries on the Heritage at Risk Register for 2025 assessed using the Buildings and Structures methodology

Number of entries on the Register for secular listed buildings assessed using building and structures methodology	1152		
Number of entries on the Register where only the secular parts of listed places of worship are assessed as at risk using building and structures methodology	2		
Number of entries on the Register for secular listed buildings and the secular parts of listed places of worship at risk assessed using the buildings and structures methodology		1154	
Number of entries on the Register for scheduled monuments assessed using building and structures methodology	306		
Number of secular buildings and structures entries on the Register (including those scheduled monuments assessed using building and structures methodology and the entries on the Register where only the secular parts of listed places of worship are assessed as at risk)			1460

Source: Historic England

Table 6 - Figures relating to entries for Scheduled Monuments on the Heritage at Risk Register 2025

Number of entries on the Register for scheduled monuments assessed using archaeology risk assessment methodology	1864	
Number of entries on the Register for scheduled monuments assessed using building and structures methodology	306	
Number of entries on the Register for scheduled monuments (assessed using building and structures methodology and archaeology methodology - some sites may have entries under both methodologies see note below)		2170

Source: Historic England

Please note some sites may have entries under more than one risk assessment methodology. For example, one scheduled monument may have two entries on the Register if the site has both structural and below-ground remains - if both elements are assessed at risk it would then have two entries on the Register under two different assessment methodologies (archaeology and buildings or structures).

Please note that some sites may have more than one entry, for example, if a site has more than one listing for its different elements.

†HAR Register 2025 as at 13:00pm 11th August 2025 (based on NHLE as it stood at 31 March 2025)
